PROFESSIONAL SUMMARY

Creative and user-focused UI/UX Designer with expertise in Figma, wireframing, and interactive prototypes. Skilled in designing intuitive interfaces that balance usability, aesthetics, and real-world application. Experienced in full-stack development with React, Node.js, and MongoDB. Passionate about conducting user research and translating insights into high-fidelity designs. Award-winning designer with demonstrated success in hackathons and design competitions.

EDUCATION

Bachelor of Information and Communication Technologies (Honours) South Eastern University of Sri Lanka, Ampara District, Oluvil, Sri Lanka Jan 2022 – Present

Diploma in English Language Esoft Metro Campus, Kurunegala, Sri Lanka Apr 2021 – Sep 2021

SKILLS & TECHNOLOGIES

UI/UX Design: Figma, wireframing, prototyping, user flows, navigation, color theory, typography, usability testing, user research, interaction design

Frontend & Mobile Development: React.js, Flutter, Android Studio, HTML, CSS (Grid & Flexbox), JavaScript, responsive design

Full-Stack Development: Node.js, Express, MongoDB, Docker, REST APIs

Design Tools: Adobe Illustrator, Photoshop, Canva, Adobe XD, Blender, Sketch

Soft Skills: Teaching, workshop facilitation, mentoring, leadership, problem-solving, creative thinking, team collaboration, user-centered design thinking

PROFESSIONAL EXPERIENCE & NOTABLE PROJECTS

Smart Campus – AI-Powered Campus Companion Application | Hack Like A Girl 3.0 Finalist (2026)

UI/UX Designer (Leading Design)

- Selected among Top 10 Finalists at Hack Like A Girl 3.0, organized by SLASSCOM (Sri Lanka Association for Software and Services Companies), held at TRACE Expert City, Colombo. Spearheaded UI/UX design for an AI-powered academic assistance platform enabling students to enhance productivity and discover personalized opportunities throughout their educational journey. **Technologies: React, Node.js, MongoDB, AI integration.** Responsibilities: Designed complete user flows, high-fidelity Figma prototypes, wireframes, interaction patterns, and responsive layouts optimized for student engagement and accessibility during critical academic moments.

SEUSL Connect – University Management Platform | Jun 2026

- Designed the UI/UX for **SEUSL Connect**, a university management platform focused on improving student services, campus communication, and administrative workflows. Created user flows, wireframes, interactive prototypes, and high-fidelity Figma designs with responsive and user-centered design principles. Designed interfaces for student dashboards, announcements, events, cafeteria services, auditorium booking, vendor management, and admin portals. Developed the frontend using **HTML, CSS, JavaScript, and Bootstrap** with backend integration using **Spring Boot, MongoDB, and REST APIs**. Applied consistent design systems, intuitive navigation, and accessibility considerations to enhance user experience. Collaborated on building a scalable cloud-ready web application architecture. **Technologies:** Figma, HTML, CSS, JavaScript, Bootstrap, Spring Boot, MongoDB, REST APIs.

EcoTrack – Household Resource Tracking Application | Oct 2025 – Nov 2025

- Designed mobile app concept enabling households to track water, energy, and waste consumption. Conducted user research, created wireframes, interactive prototypes, and high-fidelity Figma designs. Developed user-friendly dashboards supporting eco-tracking and sustainable behavior encouragement through intuitive design patterns and clear data visualization.

Alerta – Disaster Management Mobile Application | Designathon Finalist, Southeastern University | Dec 2025 – Jan 2025

- Developed disaster management mobile application during Designathon final competition. Designed high-fidelity Figma prototypes and interactive wireframes featuring SOS alerts, real-time maps, emergency contacts, and notifications. Prioritized usability during critical situations through extensive user testing and accessibility considerations.

Coffee Shop Website – UI/UX Design Project | Dec 2025 | Published on Behance

- Designed and published modern coffee shop website on Behance focusing on clean visuals, smooth user flow, and brand consistency. Created responsive layouts, intuitive navigation, and high-fidelity Figma designs showcasing menu, brand story, and customer experience.

CampusMate – Student Campus Companion Mobile App | Sep 2025

- Designed student-focused mobile application simplifying campus life through cafeteria menus, alerts, events, and student information access. Created clear navigation, consistent layouts, and intuitive user flows reducing cognitive load and improving usability across multiple features and screens.

Full-Stack Salon Booking System – Web Application | Dec 2025

- Built full-stack web application enabling customers to book salon appointments and owners to manage schedules efficiently. Implemented time-based appointment sorting (FIFO) ensuring accurate scheduling. **Backend: Node.js, Express, MongoDB. Frontend: React. DevOps: Docker.** Enhanced skills in full-stack development, backend logic, and real-world time management.

CERTIFICATIONS & TRAINING

UX Design Professional Training Google, Jun 2024

UX Certification (UXC™) Nielsen Norman Group (In progress), Jun 2025

Meta Front-End Developer Certificate Meta (In progress), Aug 2025

ACHIEVEMENTS & RECOGNITION

Top 10 Finalist – Hack Like A Girl 3.0 (2026) Selected among Top 10 finalists for Smart Campus project at Sri Lanka's premier hackathon for women in technology, organized by SLASSCOM.

Winner – Designathon, Southeastern University of Sri Lanka (Jan 2026) Secured first place for Call Alerta disaster management application. Recognized for excellence in UI/UX design, creativity, and effective problem-solving.

Top 10 Performer – SLIIT Designathon (Jul 2025) Ranked in top 10 for outstanding UI/UX design performance, recognized for creativity and effective problem-solving in user experience design.

Figma Workshop Instructor (Nov 2025) Facilitated Figma prototyping workshop for students, teaching components, animations, and advanced design skills while boosting UI/UX design competency across cohort.
